

HYDRATING CREAM

with Calendula extract

▫ 50 g ▫ 200 g

Day cream for all skin types, with softening, vitaminizing action, which, by its beneficial action of the Calendula extract, restores the skin's natural elasticity and softness.

No preservatives and/or colorants. Apply 2-3 times a day on skin, or whenever necessary.

NUTRITIVE ANTI-WRINKLE CREAM

with wheat-germs and St John's wort, Field Horsetail and Calendula extracts

▫ 50 g ▫ 200 g

With its liposoluble vitamins (A, D, E, F) content, the cream has a nutritive, anti-wrinkle action. It is a night cream, which thanks to its wheat-germs, St John's wort, Field Horsetail and Calendula extracts, regenerates the skin, tones down the existing wrinkles and avoids the formation of new ones, protects the skin against the environmental factors. No preservatives and/or colorants.

MAINTENANCE CREAM

with Aloe Vera and Calendula extracts

▫ 50 g ▫ 200 g

The special effect of mixing Aloe Vera and Calendula extracts in this cream helps maintaining the skin's hydric balance, whilst naturally softening and silkening the skin. The vitamin complex in its composition regenerates the skin's multiple layers. No preservatives and/or colorants. Apply 2-3 times a day on skin, or whenever necessary.

PROTECTION CREAM

with Calendula and Comfrey

▫ 50 g ▫ 200 g

Product designed to protect and care for the skin exposed to aggressive external factors: detergent, soap, heat, cold, dampness, wind, etc. With its contents of active biologic principles from Comfrey and Calendula extracts, the cream helps with the regeneration of the skin. It is also recommended to be used to care for sensitive or acne-affected skin. No preservatives and/or colorants. Apply 2-3 times a day on skin, or whenever necessary.

ANTI-CELLULITE CREAM

Adjuvant treatment for cellulitis

▫ 50 g ▫ 200 g ▫ 500 g ▫ 1000 g

This is a compound cream, with a great content of oils and extracts: Spearmint oil, Fir oil, Mint Oil, Arnica tincture, Costmary extract, Calendula extract, Ivy extract. The cream ensures the drainage of subcutaneous tissues infiltrated with fats, glycogen and water and activates the blood irrigation and oxygenation of tissues. The anticellulite action is the result of a wide range of actions: softening, anti-edematous, anti-exudative, of activation of peripheral circulation, antiseptic and anti-inflammatory. Daily massage is recommended, for at least 3 months. No preservatives and/or colorants.
